MEETING OF THE WOMAN'S CLUB

Monthly Business Session Yesterday.

This Organization Is Growing In Favor —Ten New Members—Ladies of Club Decide To Enlist Activity in Crusade To Clean Up the City—Junior Civic League Meets Next Saturday.

As its aims and objects are being better understood the Woman's Club of Greensboro is growing in favor, as evidenced in more ways than one. At the regular business meeting yesterday ten new names were added and the treasurer's report showed the club to be in a prosperous condition.

Under the head of unfinished business, Mrs. Hood read a very interesting report of the Educational convention in Asheville last summer, to which she was sent by the club as its representative.

A feature of the meeting and one which aroused still greater enthusiasm, especially in the civic department, were the talks by Drs. J. T. J. Battle and Edmund Harrison, followed by City Alderman J. Ed Albright and Mr. R. C. Hood. All talked in the interest of the movement inaugurated by the Board of Health, Chamber of Commerce and Civic Department of the Woman's club, all working in concert, to have the entire city thoroughly cleaned next week—before the opening of the Central Carolina Fair.

Dr. Battle, for the Chamber of Commerce, and Dr. Harrison, for the Board of Health, pledged their hearty and earnest support in any organized effort for the improvement of sanitary conditions in and around the city. Dr. Battle called attention to the fact that at this season of the year flies and insects of all kinds were laying their eggs which would be hatched next spring, and impressed upon all presents the importance of burning leaves and broken limbs of trees and shrubbery—these being favorite nests for the pestiferous bugs and ravaging worms that appear in the glad, sweet spring time. He also pointed out the necessity of spreading the gospel of sanitation into the country districts, in order to protect the citizens who lived in town, and who met all the requirements of the civic department, against typhoid and other germs that lurk in impure milk and butter and other farm products. He gave interesting figures showing the decrease in typhoid fever since the health department had been given more authority, and laid stress upon the fact that in nearly every instance it was traceable to milk or water, as witness the recent cases on Keogh street and Silver Run.

Dr. Harrison stated that Greensboro at this time was cleaner than he had ever known it, unless on some very special occasion. Still there was great room for improvement and he believed that concert of action and a well organized campaign would result in great good. He had plans and suggestions that were submitted to the ladies and acted upon.

Alderman Albright explained how the health department was handicapped for lack of force of equipment, and Mr. Hood wanted to see the children take an active part in the big fall cleaning which will be on all this week.

The civic department wants to urge all the people to come to its support in this rubbish destroying and germ exterminating crusade, and asks the colored civic league and kindred organizations to cooperate with the white people in this attempt to make Greensboro the cleanest as well as the prettiest city in North Carolina.

The committee in charge of the Junior Civic League has decided to have the children's party next Saturday afternoon at 4 o'clock, on the vacant square corner Church street and Summit avenue. Particulars will be given later. The following suggestive lines, written by the chairman of the Junior League, were ordered printed, the children being requested to commit to memory:

WE ARE COMING.

We are coming from the city,
We are coming from the farm;
We are coming with our weapons,
But not with war's alarm.
We are coming to make beautiful
This fair and favored land—
We've civic soldiers tried and true—
A busy, happy band.

Refrain.

We are coming, we are coming:
Don't you hear our marching feet?
We are coming, we are coming
And we never will retreat;
We are loyal civic soldiers
And we are in the fight to stay,
So rally 'round our standard
And help to win the day.

We are weary of the trash pile,
Of the paper littered street:
Of the dirty, weed grown sidewalk
And the house not always neat.
We are weary of neglected yards
Where flowers are never seen—
So with our broom and dust pan
We will sweep the city clean.

Refrain.

Sweep, sweep, sweep,
Don't you see the little fly?
Sweep, sweep, sweep,
Don't attempt to pass us by.
We are loyal civic soldiers
And we are in the fight to stay,
So rally 'round our standard
And help to win the day.

We are weary of all shiftless ways—
Ambition gone to rust—
To keep in line these stirring times
You must "get up and dust."
Let's have it said over country wide:
We live in Spotless Town.
Let Health and Beauty be our aim
And Duty Done our crown.

Refrain.

Sweep, sweep, sweep,
Hear the music of the broom;
Sweep, sweep, sweep—
Give us courage, give us room.
We are loyal civic soldiers
And we are in the fight to stay,
So rally 'round our standard
And help to win the day.

ARRANGING FOR FOUNDER'S DAY.

Normal Alumnae Met Last Night and Considered Plans For the Occasion.

An enthusiastic meeting of the Guilford County Alumnae of the State Normal and Industrial College was held last night, the meeting being presided over by the president, Miss Anna Meade Michaux. A large number of the members of the association were in attendance.

Founder's Day is on October 12 and an elaborate program is being prepared for the occasion.

Centenary Revival.

The services at Centenary last night took the form of short testimonials related by a number of persons. Mr. Spencer, a traveling man from Philadelphia, made a most interesting and impressive talk on the joy of personal consecration and the facination of soul saving in the great city missions and elsewhere. The meeting was declared one of the best of the series so far. The revival continues throughout today at 9:30 a. m., 11 a. m., 4 p. m. and 8 p. m. A cordial invitation is extended to the public.

CANDIDATE FOR STATE AUDITOR

Will be Named by Committee Thursday.

Call For Meeting of State Executive Committee Issued Last Night—Editor of Raleigh Newspaper and Wake County Senator Have Pugilistic Bout On Streets of Raleigh—To Appear in Court Monday.

Raleigh, Oct. 1.—Democratic State Chairman A. H. Eller tonight issued a call for a meeting of the State Executive Committe to be held in Raleigh on Thursday evening, October 6, at 8 o'clock for the purpose of nominating a candidate for state auditor to fill the vacancy caused by the death of the late candidate, Hon. B. F. Dixon. There are a number of prominent Democrats mentioned as likely candidates for the nomination and the friends of a number will most probably come here for the meeting to urge the selection of their favorite.

There was a personal encounter this morning about ten o'clock between State Senator W. B. Jones and Editor Josephus Daniels, of the News and Observer, a culmination of long and bitter political differences. Editor Danials had just stepped from the street car at the corner of Fayetteville and Martin streets enroute to his office when Senator Jones stepped up and said: "You have been lying about me again take this!" and he dealt Mr. Daniels a blow in the face. The two men quickly clinched and rolled to the ground where the fight went on for a little time before a number of men rushed in and pulled them apart. Neither was hurt. Editor Daniels had a number of bruises about the face and neck. They were directed by police to appear before the police justice and the hearing is set for Monday morning. The News & Observer carried this morning a two column article on Wake's independent movement scheduled to put out a ticket this afternoon and insinuated that under the Joneses in the past there had been primary frauds and yet the opposing element of the party had supported the ticket, but now that the Jones faction was "out" they would break party loyalty and indirectly at least encourage bolters. Jones says he has restrained himself as long as he can and that there must be an end of attacks on he and his father, Col. Armistead Jones against whom the recent campaign by the "insurgents" was especially bitter. In a statement after the assault Editor Daniels said he did not strike at Senator Jones at all; that when the latter struck him he attempted to catch hold of his hands to prevent Jones from hitting him again, and that they then clinched and fell to the street where the struggle continued until they were separated.

T. P. A.'S WIN CHAMPIONSHIP

Took Final Game From The U. C. T's.

Score in Yesterday's Contest Nine and Six—Numerous Erorrs Abounded and Some Poor Base-Running Exhibited—Three Snappy Doubles and Catch by Stroud Relieved the Oneness of Contest.

In a game of ball in which errors and bad baserunning figured quite prominently the Travelers' Protective Association defeated the United Commercial Travelers at Cone Park yesterday afternoon and thereby became the champions for the season 1910. Craddock did the twirling for the U. C. T. team and deserved to win his game, but he was not given good support and the throwing of his teammates at times was wild. On the other hand Marion and Bagley did good work on the slab and they were backed up pretty well, except in the fifth inning.

The T. P. A. men got an even dozen hits and with the proper base-running they should have run the score up into the twenties. The U. C. T. players made only seven safe connections, but none of the hits were made when hits counted. When the men got on bases the T. P. A. fielders used their heads and two fine double plays were made, while several times men were caught napping. The U. C. T. players made one double play that was a feature of their playing. Another feature was a catch by Stroud, the only outfielder who got a chance to nab at the sphere during the entire game.

The U. C. T's. made two runs in the first and it looked like they were going to carry the game off in their pockets. In the second the score was tied, the T. P. A.'s making one run in each of the next three innings. In the fifth the U. C. T's. rallied and piled up four runs after two men were down. This gave them one run in the lead and their supporters went wild. However, in the sixth four hits, an error and a wild throw allowed the T. P. A. men to pile up three runs. In the seventh they added another run, giving them a lead of three runs. McNairy starred with the stick, getting three hits out of four chances. Gwaltney followed with a single and a three sacker. For the U. C. T. Hayes and Riddick starred, batting five hundred. Miller proved that he was an adept in the traveling line for he managed to secure free transportation to first twice out of three times at bat.

The game was umpired by Mr. J. R. Donnell and his decisions were hooted at by the U. C. T. supporters, these claiming that as Mr. Donnell was a T. P. A. he was giving them a raw deal. However, the hooting was all in a spirit of fun and done mainly to enable the rooters to get as much fun as possible out of the event.

The box score and summary tells the story.

"CLEANING UP" WEEK AT HAND

Strenuous Campaign Will be Waged.

All Citizens Urged To Assist in Work of Cleaning Up the City—Wagons Will Begin In Center of City and Work Towards Outskirts — Preparatory Work Begins Monday and Wagons Will Start Tuesday Morning.

"Cleaning up" week has arrived and for the next few days the health department of the city, assisted by the Chamber of Commerce and the Woman's Club, will wage a strenuous campaign to rid the city of some of the trash and garbage that is at present adorning the yards and premises of a large number of the residents. The preparatory work will begin Monday and the wagons will start to hauling the trash on Tuesday morning. As has been stated there will be a wagon for each ward.

Realizing that it is often a hard task to find a laborer to clean up the trash around a house the health department of the city will secure the services of a squad of hands and any persons desiring to secure a hand to clean the trash off their yards and collect it in boxes or barrels convenient for the wagons can phone 797 and a hand will be sent out. This is done for the convenience of those who do not have time to search for a hand and the person employed is paid by the hour for his services, 15 cents being the usual charge in such cases. At most it will not take longer than an hour to clean a yard unless it is in pretty bad condition, and the average yard can be cleaned in half an hour.

The wagons will begin their work on Elm street, one wagon being stationed in each ward. The wagons in wards two, three and six will begin on the east side of Elm street and work towards the outskirts of the city. The wagons in wards one, four and five will begin on west side of Elm street and work westward to the corporate limits. The wagons will cover the city street by street and the progress will be noted in each issue of The Telegram until the entire city is covered. In this manner the residents will be gixen an idea as to when the wagons will reach their particular street.

Every person in the city is urged to assist in getting the city in the cleanest condition possible for the fair. Thousands of visitors will be here and some kind of impression will be made on their minds. If they find the city in a cleanly and neat condition it is needless to say the impression will be a favorable one or vice versa if they find piles of trash and rubbish and littered yards on the premises of the property owners.

The following statement has been issued by City Physician Edmund Harrison:

Beignning Tuesday morning, there will be a trash and garbage wagon in each ward of the city, and all owners or occupants of lots are urged to have said lots cleaned so that there will be no delay. The wagons will all begin their work on Elm street and work outward, so that owners in the central sections are especially urged to see that the work is done Monday. A schedule of the routes of the wagons will be put in each paper daily. The board of health will endeavor to have help at the court house Monday morning, so that no one may be barred from an early start, but by phoning 797, or going to Court Square, he may secure men or boys for this work. In cleaning the lots, special care should be exercised to see that all standing water and all wet spots are thoroughly drained. Each wagon will contain a garbage receptacle, and garbage should be kept separate from other trash.

EDMUND HARRISON.

In Municipal Court yesterday morning John Stewart was charged with vagrancy. Judge Eure giving him a thirty day sentence on the roads. JAPS MAKING PEARLS BY A SECRET PROCESS.

Prof. Dean of Columbia Tells Fisheries Society of What He Learned at Tokio.

New York World.

Prof. Bashford Dean, of Columbia, told the members of the American Fisheries Society at the Aquarium yesterday that he knew where high-grade pearls were being made by a secret process and that if this process were to become known generally there would be a terrible drop in the price of that jewel.

"For several years," he said, "the natives of a town near a little harbor about fifty miles south of Tokio have been producing pearls of the highest grade by a process known only to them. I only learned of this when I was at the University of Japan.

"Even the Emperor does not know the process, and there is no danger of its becoming known to others. It was invented by Dr. N. Nishikawa, a graduate of the University of Tokio, now dead. On his death bed he intrusted the secret to S. Mikemoto, his father-in-law."

"It Beats All."

This is quoted from a letter of M. Stockwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first dose gave great relief and one bottle completely cured me." Contains no opiates. INDIANS' PRIDE.

Native Reserve and Conservatism Keep Them Apart From Whites.

Even among the Five Civilized Tribes there still remain many communities wholly full blood. These people drift together, following their own ideas of life, speaking their own language and retiring before the whites with the same strange reserve and pride that characterized them in their wild state.

Although claiming the name of several Christian denominations and following certain beliefs with devoutness, their ways of thinking, their dislike of innovation and their aversion to work have made them withdraw to the mountain districts. Whether this so called reserve comes from pride or a distrust of the white man or timidity or merely a stubborn conservatism, it produces the same result, the backward and nonprogressive Indian.

There is, too, a certain mystic quality that holds the Indian aloof, says the Southern Workman—a quality that we do not understand and with which there is little sympathy in our everyday life. He is so much of a philosopher that he looks upon our strenuous life with some contempt, dismissing our efforts for personal comfort and material advancement with the remark that "the white man is heap trouble to himself." While people call him lazy because he does not care to exert himself for those things which seem important to whites, yet to some religious ceremonial or some artistic expression his application is persistent, and the "patience of an Indian" has passed into a proverb.

WORKED LIKE A CHARM.

She Joined a Card Club In Order to Forget Her Work.

An Atchison woman who found the monotony of dishwashing, cooking and laundry work proving too much for sanity was urged to join a card club. "It will take your mind off your work," she was told, and so she joined. In order to attend she had to get up that morning an hour earlier to get her work done; a neighbor girl was hired to stay with the baby, and when, flustered, nervous and tired, she left the house fifteen minutes late she was followed by the screams of her three children because they couldn't be taken along. But she had her mind taken off her work at the card party. Of that there is no doubt, for when she made a misplay her partner, a perfect lady, walked right over her, then picked her up and shook her, and then chewed on her for fifteen minutes. She became so frightened that the little wits she had under her hair fled, and she made another misplay with another partner, and this woman, also a perfect lady, talked to her in a way the woman should have been ashamed to talk to a dog. It was more than she could endure, and, weeping like a sprinkling cart, she got up and went home.

"It did even more than it promised," she told her husband. "Nothing has ever happened to me in all my life that so effectively took my mind off my work. Why, there were times when I even forgot I had you and all the children."—Atchison Globe.

Athletics and the Unfit.

Those who are unfit should not indulge in athletic games is a warning by Dr. Woods Hutchinson in Outing.

A boy, for instance, is a little weak after a mild attack of infectious fever, pneumonia, influenza or tonsilitis, and his heart is beating faster and more violently than it should on exertion. But the team wants him or he wants a record, or both, and away he goes into training.

"Suddenly one day the heart can no longer drive on its overload of blood, and down goes the runner or oarsman in an attack of heart failure," and athletics get all the discredit.

The same danger lies when there is no training, the sport being purely informal. It lies also where the girl just convalescent persists in taking part in a long anticipated dance. Only that phase of common sense which is manifested in common prudence is necessary to avoid such perils.

His Other Name.

The candidate for the place of coachman had been weighed and was not wanting, according to his new mistress' lights. Then the question of his name, which was Patrick, came up. The mistress objected to it in her heart, so she explained that it was her custom always to call her coachman by his family name. Had he any objections?

"Not the slightest, ma'am."

"What is your last name, Patrick?"

"Fitzpatrick, ma'am."

Anchored.

A little chap four years of age met with the misfortune to have his hat blown into the river. When he reached home his father said to him:

"It's a wonder you didn't blow overboard too."

"I couldn't," was the quick response. "I was fastened to my feet!"

Acute Sense of Hearing.

Camille—Clarence isn't so diffident when he talks to you through the phone, is he? Estelle—Isn't he? Even through the phone I can hear his heart flutter.—Exchange.

Sympathetic Father—Parted from Harry forever, have you? Well, perhaps it's just as well not to see each other for a day or two.—Life.

A sunny temper gilds the edges of life's blackest cloud.—Guthrie.

Word comes from Washington that Mr. Taft is depressed by the reports that he gets on politics. Well he may be. If he will look right close, he will see the handwriting on the wall.

The past crop year, the larger crops were valued as follows: Corn $1,600,000,000, cotton $800,000,000, wheat $650,000,000, oats $400,000,000. The country over cotton is not king; it is corn to which belong the royal prerogatives.

The recently elected Democratic Governor of Maine was a grandson of a Democratic Governor of Maine. The grandfather of Democratic nominee Dix was Governor of New York in 1872. Maybe New York is going to follow Maine's example.

Gen. Funston left a Kansas City hotel in a huff because the bell boys were attired like a United States Army captain. But it would be hard for the hotel people to attire their bell boys in a uniform that didn't look like some sort of a captain.

A dispatch from Oyster Bay commences "Bringing with him his son-in-law, Representative Nicholas Longworth, Col. Roosevelt returned to New York late this afternoon." There suggests itself the picture of Nick trotting along with his hand in that of his daddy-in-law. Being the son-in-law of a great man of the dominating type has its disadvantages.

Col. Roosevelt compared the Democratic convention at Rochester to the Republican convention at Saratoga to the disadvantage of the former. There was a "slate" at both conventions, but as the Democrats deliberated over theirs several days longer than did the Republicans, their proceedings look less like one-man power than do those of the Republicans.

An editorial in the New York Times states that at the Democratic convention at Rochester a brick could not be thrown in any direction without hitting some lobbyist or railroad attorney. Col. Roosevelt says the Times is one of the most envenomed foes of the Republican party and a leading representative of Wall street Democracy. The inference is plain that Wall street democracy is against the proceedings at Rochester, a circumstance which certainly speaks well for those proceedings.

Says an exchange:

It is Woodrow Wilson where once it was Thomas Woodrow Wilson. Even so Stephen Grover Cleveland became plain Grover Cleveland. One thing that is in a three-part name is the opportunity to prune a few syllables for terseness and distinction.

Most people are too much named any way. We know of a family of seven none of whom was given more than one name and it was one of the best and most sensible exhibitions of taste we remember to have seen.

Because Charles F. Murphy was for W. J. Gaynor for Mayor of Greater New York it was said Gaynor had no chance. But Gaynor was overwhelmingly elected. When Tammany backs a deserving man and a man of courage and independence, thoughtful men who want a good man for office are not going to be deterred by Tammany support from voting for such a man. The fact that the Democratic organization of New York County favored John A. Dix for the Democratic nomination for Governor of New York is no sign that Dix is certain to be defeated.

Rochester, N. Y., Oct. 1.—A State convention that will go down in political history as one of the most remarkable in the history of the Democratic party, closed tonight by nominating John A. Dix, chairman of the party's State committee, and a wealthy Washington county business man, to run on a progressive platform of the widest type. The platform, framed to cover the issues which the Democratic leaders believe were inadequately met by the Republican convention at Saratoga, gained no less attention and approval than the candidate.

These are words of the Associated Press, an independent news-gathering agency, used in connection with its report of the great New York State Democratic convention at Rochester. They show that the Democrats put their best foot forward at Rochester. It's something of a job for a Democrat to get elected Governor of New York, owing to the large Republican vote up-State, but with Maine going Democratic the old rule of judging the future by the past is upset and it is well within the range of possibility that the next Governor of New York will be the gentleman whom the Democrats have just named at Rochester.

WILL BE A BIG FAIR.

Secretary Daniel Says Preparations For It Are Progressing Satisfactorily.

Mr. Garland Daniel, secretary of the Central Carolina Fair Association, reports that the approaching fair—October 11-14—is being received with the greatest enthusiasm from adjoining towns and cities, and he is having countless inquiries as to space, etc. It looks like this will be the biggest fair ever held here. Many free attractions have been engaged, including Madam Sunday, who loops the loop in an automobile; Darling's Dog and Pony Show, balloon races, a first class Wild West Show, Roman standing race and others.

The horses represent a large number of stables and are the fastest that come down the line. Mr. Daniel states that he has succeeded in filling the stakes and that the track events will be an important feature of the week's entertainment.

This is going to be no small fair this year; in fact, it will be a fair of magnitude and one that will show the people of this section of the State that we can have an up to date fair in every respect. The people are urged to get behind Mr. Daniel and boost and help and assist in any way they can, as he is running this fair with a view to making it a great success. The public should know that Greensboro is the city that gives a hearty welcome and a warm handshake and the place where one can rest assured that he will get a square deal. People like to come to Greensboro for that reason.

Secretary Daniel has arranged for a grand fireworks display at night, a pyrotechnical battle scene traced in fire outlining the Monitor and Merrimac battle scene consisting of reports single, heavy and volley accompanied by flashes and comets; also pyrotechnical illustration of what would happen should Halley's comet come in contact with the earth. This will be the greatest fire works display ever seen in North Carolina.

The buildings are now being overhauled and are filling very rapidly with exhibits of all kinds and nothing that could contribute to the success of the event has been left undone. The management has spared neither time nor expense in their efforts to make the fair the "best yet."

GOVERNOR APPROVES MONUMENTS TO WOMEN

State of North Carolina,
Executive Department,
Raleigh.

Gen. C. Irvine Walker, Saluda, N. C.

Dear Sir: In reply to your letter of the 22nd, I beg to say that I shall be glad to co-operate with you in the movement to secure State monuments to the women of the Confederacy.

I think your plan to have a tag-selling Monument Day will be beneficial to the movement. I have often advocated Monuments to the Confederate woman, not only in recognition of her loyalty and service during the war, but for her unflinching loyalty ever afterwards. I have frequently said that a monument to the Confederate woman, among other things, should have an inscription stating that the dark days of reconstruction found no scalawags among the women of the South.

With best wishes,
Yours truly,
W. W. KITCHIN,
Governor.

MRS. ROBERTSON WELCOMED HOME

Local Alumnae Association of Greensboro Female College Holds Meeting At Which She Is Warmly Received Following Her Recent European Trip.

The local alumnae association of Greensboro Female College held its monthly meeting yesterday afternoon in the West Market Street church Sunday school building in the room known as the Ireland room. Mrs. Charles Ireland, president of the alumnae association, had previously announced that Mrs. Lucy H. Robertson would be present at the meeting and make an address on her recent trip through Europe.

At the appointed hour the room was well filled and after all necessary business had been dispatched, Mrs. Giles Foushee having been eleeted first vice president and Mrs. Bettie A. Cunningham second vice president, and different chairmen appointed. Five new members were enrolled and a creditable report heard from the treasurer, all of which was most encouraging and put all in just the humor to listen to Mrs. Robertson who was welcomed home by Mrs. Chas. Van Noppen, who said in part:

"Now that business has been attended to, we turn with hearts full of love, lips smiling in gladness and hand clasps warm with congratulation and welcome to Mrs. Robertson upon her return home from foreign shores. 'Tis strange and pitiful that when the emotions are strongest our words are weakest. Because of our having experienced this we can understand and join the old Roman in his words of welcome to the victorious Coriolnus and say to Mrs. Robertson 'a hundred thousand welcome.' We could weep and we could laugh, we are light and we are heavy. Welcome! and a curse begin at the very root of the heart that 'is not glad to see thee. We can safely repeat that last line for there is not one in this assembly that is not 'glad to see thee.' Glad to see her not only because she holds our heartstrings but she holds upon her shoulders the institution we love. Not like Atlas who in the misty uncertainty of the dawn of legendary lore had the globe placed upon him, but she has out of ashes formed this institution—reformed it upon a modernized plan and holds for you and your children and all others an open door to all the advantages of science, letters, music and art and to that broad, beautiful culture which comes to those who dwell in daily contact with a perfect woman. Mrs. Robertson, we admire you all the more because of this second trip abroad for it is an evidence of your ability to "train on" which has been pronounced by one of our modern philosophers the defintion of genius. Savages show their pride in and love for their chiefs by presenting them with the game they have killed or with shells and beads, but you have taught us a better way so we lay before you this afternoon our loyal friendship, our love—for it is yours—to have and to hold."

Mrs. Robertson, who looked greatly refreshed by her trip, after a most graceful prelude in which she rehearsed the growth of the college since the fire, gave all credit to the alumnae association for the grand work, saying its curriculum is now so high that very few colleges in the South equal it and its need of an up-to-date conservatory of music is an absolute necessity because of the great work being accomplished in that department. She then spoke of her recent trip beginning with the sea voyage, the landing in Glasgow and from there she carried her audience through Scotland, partly in coach and partly by train, through the Trossachs and the Scottish lakes—Loch Lomond and Loch Katrine were so beautifully described her listeners felt as they "Stood concealed amid the brake to view this Lady of the Lake." The whole scenery seemed filled with memory of Sir Walter Scott and his love for Scotland. She told of the views from the windows at Abbotsford, its charm, &c., also of visiting that most perfect of Gothic ruins old Melrose Abbey. Then of Edinburg, which is pronounced by many the most beautiful city in Europe. Told of Holyrood Castle and its associations with Mary Queen of Scots, passing into West England passed through Kesnick, with its memories of Southy, Coleridge and Wordsworth—to Stratford on the Avon—and to London, and ended by saying as it was too big for one brief hour she would only describe her visit to the "House of Lords" which she did in a most beautiful manner it being so seldom seen by tourists it was good to see some one who had invaded the sacred precincts and heard a real debate by the English Peers. Though the hour was late Mrs. Robertson could have held her audience much longer.

WILL MEET TOMORROW.

Directors of Masonic and Eastern Star Home To Decide on Site.

Mr. L. M. Clymer will leave tomorrow for Charlotte to attend an adjourned meeting of the board of directors of the Masonic and Eastern Star Home, which will be held in that city tomorrow for the purpose of deciding on the location of that institution. The first meeting of the directors was held on Sept. 22, but no decision was reached, the board being about evenly divided between Greensboro and Shelby.

Shelby offers $6,000 cash and a site of 27 acres. Greensboro offers a site of 25 acres and a cash consideration of $5,000. While the Shelby offer is more tempting the directors also consider the accessibility of Greensboro and were it not for this fact there would be no trouble in deciding on Shelby. Greensboro is making a determined pull for the institution and every advantage she possesses will be held before the directors.

Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from $70 to $90 per month, with good chance of advancement. The National Telegraph institute operates six official institutes in America, under supervision of R .R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., Philadelphia, Pa., Memphis, Tenn., Davenport, Ia., Columbia, S. C., or Portland, Ore., according to where you wish to enter.

Lutherans To Build.

The First Lutheran church which was permanently organized in this city by Rev. J. E. Shenk about three months ago is meeting with marked success. The congregation has secured a choice lot and plans have been selected for the erection of an elegant house of worship, the work of building will be begun in the near future. The old Peters residence located on the lot will be moved shortly and modernized and enlarged for a parsonage. The growth of the membership has been very rapid and the church has a flourishing Sunday school, splendidly officered.

FORTY POINTS OF BEAUTY.

American Women Come the Nearest to Possessing All of Them.

New York Evening World.

What are the cardinal points of beauty?

Helleu, the noted French etcher, declared the other day that they are 40 in number, and that Mrs. Philip Lydig, an American society woman, possesses 39 of the two-score essentials of pulchritude.

Mr. Albert P. Lucas, one of the most distinguished American painters of the nude and of portraits, undertook to answer this question for me recently. Mr. Lucas, who is a pupil of Gerome and Herbert, returned not long ago from Paris, where his pictures were a feature of the Salon for many years. His work is represented in the National Gallery at Washington, and his bust 'Ectase" occupies a place of honor in the Metropolitan Museum. Incidentally, he knows Helleu well, and when I saw him in his studio he shed some interesting light on the famous Frenchman's theory of beauty.

"To an artist," he said, "there would be more nearly a thousand cardinal points of beauty than 40, if he cared to enumerate them. But many of these would be technicalities of form, of no interest to the general public.

"The essential qualities of feminine beauty may, I think, be summed up as symmetry, color, length of line, intelligence, refinement, harmonious hands and perfect feet. In many years of study and painting I have seen just one face which, from an artist's standpoint, I could pronounce a perfectly beautiful one. I have never seen a perfect figure. But I have used models of all nationalities, and I am convinced the figure of the American woman most nearly approaches perfection.

"There is a pearly whiteness to the American skin that I have never found elsewhere, a correctness of proportion, a length of line that even the famous Italian models do not possess. The Italians are too heavy in the limbs; their ankles and wrists lack definition. The French woman has not the American coloring. The English woman is too narrow in the hips. She is built more like a boy than a woman.

A Generous and Charitable Wish.

"I wish all might know of the benefit I received from your Foley's Kidney Remedy," says I. N. Regan, Farmer, Mo. His kidneys and bladder gave him so much pain, misery and annoyance, he could not work nor sleep. He says Foley's Kidney Remedy completely cured him. Sold by Howard Gardner.

Policy.

"So, Johnnie, you wish to be a boy scout."

"Yes, dad."

"Well, those tall weeds in the back yard would make excellent cover for an enemy. I think it would be good military tactics for you to cut 'em down."—Pittsburg Post.

Forced To Leave Home.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the King of all cough and lung cures." Thousands owe their lives and health to it. Its positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles, 50c and $1.00. Trial bottle free at Fariss-Klutz Drug Co.

Wise One.

Plodder—Your wife will raise a fine time when she comes home from the country and finds the house in such a plight. Why don't you tidy it up?

He—Would you be satisfied to give up your present beautiful home and live in a little white cottage?

She—I might, if there was a little red automobile hitched in front of the door.—Montreal Star.

A Reliable Medicine—Not a Narcotic.

Get the genuine Foley's Honey and Tar in the yellow package. It is safe and effective. Contains no opiates. Refuse substitutes. Sold by Howard Gardner.

"Now," said the architect, who was putting the finishing touches upon Mr. Nurich's new residence, "what color do you prefer for the parlor decorations?"

"Oh, they got to be red," replied Nurish. "My wife's got a red plush photograph album that always sets on the parlor table."—Catholic Standard and Times.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

One dollar bottles guaranteed.

TEAR UP SKIRTS AS BANDAGES FOR AN AUTO VICTIM.

Two Actresses Destroy Their Underwear to Bind Up the Wounds of Aged Woman Knocked Down by Car.

New York World.

To stanch the wounds of an elderly woman whom their automobile had knocked down on Riverside Drive yesterday afternoon, two actresses tore their underskirts into bandages. Then, with a policeman on the step of the car blowing his whistle, they drove at high speed to Roosevelt Hospital, holding the seemingly dying woman in their arms.

Mrs. Elizabeth Stevens, aged 63 years, of No. 254 West Eighty-fourth street, had been with her daughter, Mary, to see the fleet lying in the Hudson River. As she was crossing Riverside Drive at Eighty-fifth street on her way home the warships fired the sunset gun. Startled by the resounding explosions, she stopped, then turned as if intending to return to the park wall, and stepped directly in front of the automobile.

The car belonged to Mrs. Rosa Crouch, living in the hotel Girard, Forty-fourth street and Broadway. She had with her Miss Zenes Keif, of No. 110 West Forty-fourth street, who also proclaimed herself an actress. The machine was driven by Frederick Crousish, of No. 3153 Broadway. It was not going at high speed the occupants say.

Mrs. Stevens, who was knocked down, bled profusely from a deep cut on the head. The two women in the car got out, realized the need of bandages and promptly sarcificed their underskirts to bind up the deep wound in Mrs. Stevens' head. With the help of the chauffeur they lifted her into the machine and held her in their arms, while her head rested on Mrs. Crouch's shoulder.

At Seventy-ninth street they picked up Patrolman Walter Corbett. He ordered them to drive at the utmost speed, and he stood on the step at the side of the car blowing his whistle to obtain a clear road. The wild dash down Amsterdam and Columbus avenues to the hospital caused consternation among persons in other vehicles.

Before she lost consciousness Mrs. Stevens said the accident had been due entirely to her own mistake in stepping back. Dr. West found that her right arm was broken and he feared she had internal injuries. He gave little hope for her recovery.

No arrest was made.

Capt. Bogardus Again Hits the Bull's Eye.

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says:—"I suffered a long time with kidney and bladder trouble and used several medicines, all of which gave me no relief until I started taking Foley Kidney Pills. Before I used Foley Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." Sold by Howard Gardner.

ANTI-TIPPING SOCIETY

Charter Secured By Texas Organization Formed To Fight Evil.

Dallas News.

The anti-tipping movement, which, starting in the East, has rapidly spread over the country, has reached Texas. A charter was taken out at Austin recently for the National Anti-Tipping Society. The constitution and by-laws of the society prohibit the giving of tips for any service, even on Pullman cars.

"The tipping custom has grown to be a burdensome tax on the traveling public," said A. P. Foute. "It costs all the way from 50 cents or 75 cents a day in the towns and small cities to $2.50 and $3 a day at the hotels in New York and other large cities. In order to get any attention you have to tip everybody. You have to pay the elevator man. If you wish anything brought to your room, the bellboy must be compensated. When you go into the washroom a boy hands you a towel and begins to get industrious with his brush and whisk broom, and, as you get ready to leave, he holds out his hand.

"The head waiters in the hotels get half the tips the waiters collect, and some of them in New York are worth as much as $200,000. It is folly for the individual to protest, for he gets the name of being a stingy crank. So the traveling salesmen and the traveling public generally have started an organized movement against the evil. If the movement should succeed, the hotels will have to pay their own help and the porters on sleeping cars will have to be put on the payroll of the Pullman company.

"Tipping is of European origin, but the traveler over there is out only a few pennies a day, and he does not miss the money. When the people of the United States adopted the system they ran the thing into the ground by chucking out quarters, fifty-cent pieces and silver dollars, prompted to do so no doubt by a desire to create the impression that they had more money than they knew what to do with."

Reaching the Top

It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After months of suffering from Kidney Trouble," writes W. M. Sherman, of Cushing, Me., "three bottles of Electric Bitters made me feel like a new man." 50c. at Fariss-Klutz Drug Co.

"I never realized before that I had such a large following," remarked the pickpocket as the 350-pound cop gave chase.

BUILDING DYNAMITED

Score of Employes of Los Angeles Times Killed by Explosion.

Los Angeles, Cal., Oct. 1.—The building and plant of The Los Angeles Times, one of the best known newspapers of the southwest and of which Gen. Harrison Gray Otis is editor and principal owner, was completely destroyed by an explosion and fire soon after one o'clock this morning, resulting in the death of upwards of 20 of its employes and a financial loss of nearly half a million dollars.

The management of the paper lays blame of the explosion to the labor unions, with which organizations the paper has long been engaged in bitter warfare. It is charged that unknown persons set off a charge of dynamite in a blind alley which ran into the center of the building, completely wrecking the interior and setting it on fire from roof to basement.
